for people who create **FUNDERMAX**®

* Our products are exclusively manufactured only with HPL of the Austrian producer FUNDERMAX.

GES is producer and processor of waterresistant Boards (PPC-Panels surfaced with HPL) for bath, kitchen and room design. We realise your wishes from jointless shower trays over furnished washbasins and floor systems to complete wall covers. It is even possible to produce HPL that is individually designed with your own photos and pictures.

Applications in private homes: bathroom, kitchen, floor, guest toilet, sauna, steam shower, furniture walls and many more

Applications in professional area: hospital, retirement home, industrial-sized kitchen, hair salon, medical center, school, physiotherapy center and many more

Range of decors: <http://www.fundermax.at/interior/dekore.html>
At www.fundermax.at you can also get an overview of the product variety and its applications.
